### **Checklist for Parents of Newborns**

Before you leave the hospital, obtain the following information to bring to the first visit:

- ☐ Discharge weight \_\_\_\_\_
- ☐ Results of any lab tests performed
- ☐ Results of Bilirubin tests, if done
- ☐ Results of blood type tests for mom and baby (if done). Keep a record for yourself as well

The State of Georgia currently requires a **hearing screen** to be done on all newborns before discharge.

- ☐ Please bring the hearing screen report to the first visit

**PKU Metabolic Screening Test** – this is done on all babies for several metabolic diseases which are preventable if treated early. This test will be done in the hospital before discharge. If it is done before the baby is 24 hours old, it will need to be repeated at their first visit in the office.

- ☐ Record date and time test was done \_\_\_\_\_

Please call the office and schedule the following appointments:

- ☐ Newborn Post D/C Visit at 1-2 days after discharge from the hospital
- ☐ Newborn visit at approximately 7-10 days of age with one of our Nurse Practitioners
- ☐ Visit # 2 at approximately 1 month of age
- ☐ Visit # 3 at approximately 2 months of age

Call your insurance company and your employer's human resource department to add your baby to your health insurance policy.

North Atlanta  
**Pediatric**  
associates

- ☐ Record the date the call was made
- ☐ Remember to bring the insurance card to every visit

Complete the forms included with this book to bring to your first visit

- ☐ New Patient Information
- ☐ Family History
